## Which number do you prefer?

The results of clinical trials can be written in different ways. We have written the results for four different pain killers below.

These pain killers are labelled A, B, C and D.

Please use the slip to put the pain killers in order from best to worst by circling the relevant letters. If you think that two or more pain killers are the same, you can circle more than one letter on the same line.

Pain killer **A** cures the headache of 4 out of 5 people
Pain killer **B** cures the headache of 85% of people
Pain killer **C** cures the headache of 750 of 890 people
Pain killer **D** cures the headache of 8 out of 10 people

The best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The worst pain killer is	Α	В	С	D
The best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The worst pain killer is	Α	В	С	D
The best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The next best pain killer is	Α	В	С	D
The worst pain killer is	Α	В	С	D
